TITLE 29—LABOR

Chapter VI—National War Labor Board

PART 803—GENERAL ORDERS

WAGE AND SALARY SCHEDULES

§ 803.31 *General Order No. 31.* The following regulations supplementary to General Orders 5, 6, and 9 relating to wage and salary schedules and to plans for making individual wage and salary adjustments under such schedules are hereby adopted:

I. *Employers of 30 or fewer employees.* Without regard to the requirements of General Orders 5, 9, or 31 an employer of 30 or fewer employees may, without approval of the National War Labor Board, make individual increases in the wage or salary rates of his employees for particular jobs as a reward for improved quantity and/or quality of work or service, *Provided, That:*

A. The total of such increases to any individual employee (subject to National War Labor Board jurisdiction) shall not exceed 10 cents per straight-time hour during any year (beginning July 1, 1943), and the total amount expended on such increases during any such year shall not exceed an average of 5 cents per straight-time hour for all the employees in the establishment; whose wage or salary rates are subject to the jurisdiction of the National War Labor Board.

B. Such increases shall not be made the basis of an application to the National War Labor Board for approval of increases to eliminate intra-plant inequities.

C. Such increases shall not result in the payment to any employee of a rate in excess of the highest rate paid by the employer between July 1, 1942 and June 30, 1943, for jobs of similar skill, duties, and responsibility.

D. Such increases shall not result in any appreciable increase in the level of production costs and shall not furnish a basis either to increase prices or to resist otherwise justifiable reductions in prices.

E. Such increases shall not be made contrary to the terms of any collective bargaining agreement covering any or all of the employees of such employer.

Such employer is not precluded from applying to the National War Labor Board for approval of a schedule of making individual wage or salary adjustments, as provided below for employers of 31 or more employees.

II. *Employers of 31 or more employees.* An employer of 31 or more employees may make individual increases in the wage or salary

The term "establishment" as used throughout this General Order normally means a place of business of an employer. Such place of business may be a physically separate unit or a unit which is customarily distinguished for administrative purposes. An example of a physically separate establishment is a plant or a retail store. An example of an administratively separate establishment is a research laboratory or a general office.

rates of his employees under General Orders 5 and 9 without National War Labor Board approval only under a schedule which conforms to the following standards.

In order to have a "schedule" within the meaning of General Orders 5 and 9, an employer must satisfy the following two requirements: He must have (a) job classification wage or salary rates or rate ranges and (b) a plan for making individual adjustments within and between such wage or salary rates or rate ranges.

A. Job-classification rates or rate ranges properly in existence do not require approval of the National War Labor Board—1. A job classification is a category of jobs or positions which are similar in nature and content and in required amount of knowledge, skill, experience, and responsibility. A job classification involves more than a mere descriptive title; the classification must be clearly defined and described. Where jobs differ as to knowledge, skill, experience, and responsibility, there should be different job classifications. (For example, typists, stenographers, and secretaries should each be considered separate job classifications because the respective work differs as to skill, content, and responsibility. These three categories may not be grouped together in one job classification.)

2. A job classification rate exists where an employer pays a single rate rather than a range of rates for a given job classification. Jobs remunerated on a piece-rate basis are normally considered to be in single-rate job classifications.

3. A job classification rate range exists where an employer pays, for a given job classification, a number of rates varying from a clearly designated minimum rate to a clearly designated maximum rate.

a. A mere descriptive job title and a poorly defined or extremely wide rate range is not a job classification rate range.

b. The minimum and maximum rates are not necessarily the lowest and highest rates being paid at a given time for a particular job classification. For special reasons (e. g., lack of experience or superior ability) particular employees may be receiving less than the minimum or more than the maximum rate. Moreover, it may happen at a given time that no employee is receiving the actual minimum or maximum rate for a particular job classification.

4. Job classification rates or rate ranges properly in existence are those (as defined above) which were (a) in existence prior to October 3, 1942; or (b) those resulting from permitted or approved adjustments subsequent to that date; or (c) rates set for new jobs under either the former or the revised General Order No. 6. Improper adjustments of rates for job classifications or for individual employees are not a basis for determining a job classification rate or rate range.

B. A plan properly in existence does not require approval of the National War Labor Board. 1. A "plan" is an orderly, definite procedure or a group of procedures for making adjustments, within specified limits, in the wage or salary rates of individual employees (a) within particular job classifications and (b) when they move from one job classification to another.

Such a plan ordinarily includes (a) tests and procedures for determining whether employees are to be given individual rate adjustments; and (b) limits on the number of adjustments, the timing of adjustments, and the average or total amount of money to be granted in the adjustments over a given period of time. (It is not essential that a given plan include all the foregoing items.)

2. A "plan properly in existence" is one (as defined above) under which individual rate adjustments are made in conformity with the provisions of (a) a collective bargaining or other bona fide, established agree-

ment which was in effect on June 30, 1943; or (b) written statements, minutes, or memoranda of the employer which were in existence and effect on or before June 30, 1943; or (c) a plan approved by the National War Labor Board or by any of its authorized agents or agencies; or (d) the plan outlined below.

C. Employers who have no plan properly in existence (as defined under (a), (b), or (c) of the paragraph immediately above) may adopt the following plan without obtaining approval from the National War Labor Board. Employers who wish to replace properly existing plans with the following plan may also do so without Board approval (but see Section III-A-5 below):

1. **Merit increases or automatic length-of-service increases**—a. *Merit increases* are individual wage or salary rate adjustments made as a reward for improved quantity and/or quality of work or service. "Automatic length-of-service increases" are individual adjustments usually made automatically at the end of specified periods of satisfactory service.

b. Both such increases must be made only within job classification rate ranges (as defined above).

c. The total of such increases to any individual employee (subject to National War Labor Board jurisdiction) shall not exceed, during any year (beginning July 1, 1943), 10 cents per straight-time hour or more than two-thirds of the difference between the appropriate minimum and maximum rates, whichever increase is greater; and the total amount expended on such increases during any such year shall not exceed an average of 5 cents per straight-time hour for all the employees in the establishment who are covered by the plan and whose wage or salary rates are subject to National War Labor Board jurisdiction.

2. **Promotions or reclassifications** involve individual adjustments which result from moving an employee into a different job classification. Promotions and reclassifications may be made between jobs which bear single rates as well as between jobs which bear rate ranges. When promoted or reclassified to a higher-rated job, an employee (subject to National War Labor Board jurisdiction) may receive a rate not in excess of 15 percent above his rate on his former job or the minimum rate for the new job, whichever is higher: *Provided, however*, That where an employee has special ability and experience, he may be paid a rate within the appropriate range corresponding to such ability and experience.

3. **Apprentice or trainee programs** involve individual rate adjustments resulting from improvement, over specified periods of time, in the productive abilities of apprentices or trainees who are employed under a bona-fide apprentice or trainee program as defined below. Under these programs, adjustments may be made with respect to jobs which bear single rates as well as with respect to jobs which bear rate ranges. Apprenticeship or trainee programs for a given job classification—with respect to length of apprenticeship or learner period; proportion of number of apprentices or learners to number of experienced workmen; and relation of apprentice or learner wage rate at various periods to the rate paid to experienced workmen—should conform to the standards set forth in a collective bargaining agreement or in the applicable regulations of federal or state agencies. The re-examination or modification of existing apprentice or trainee programs in the interests of greater production for the war effort is not precluded. Any change in existing apprentice or trainee programs, however, requires Board approval unless made in conformity with changes in the

applicable regulations of federal or state agencies.

d. **With respect to all schedules**, (1) each job classification must be clearly distinguished and described; and (2) no appreciable increases in the level of production costs may result from individual rate adjustments, nor shall such adjustments furnish a basis either to increase prices or to resist otherwise justifiable reductions in prices; and (3) individual rate adjustments may not be made the basis for an application to the National War Labor Board for approval of wage or salary rate increases to eliminate intra-establishment inequities.

e. **Records**. Any employer who makes individual wage or salary rate adjustments pursuant to a schedule must hereafter keep available for a period of two years, records showing (1) for each job classification, (a) the rate or range of rates and (b) the description; (2) a statement of the plan of making adjustments within the rate ranges and between the rates or rate ranges; (3) the date when the schedule was established; (4) for each employee who received an adjustment, his name, the date hired, the date of and the reason for adjustment, the job classification, and the rate of pay before and after the adjustment. *No particular order or form is prescribed for these records, provided that the information required is readily obtainable.*

III. **Guides for obtaining Board approval where required**. A. All wage or salary rate schedules (as defined) which are not exempt from the requirement of Board approval (as stated above) must be submitted for approval to the appropriate Regional War Labor Board. In order that the making and the examination of such applications for approval may be facilitated, certain requirements are outlined below.

1. **Proposed rate ranges** (where it is desired to make individual merit or automatic length-of-service increases as well as promotions and reclassifications) should be set forth for each job classification involved.

2. **Proposed single rates** (where it is desired to make promotions or reclassifications but not to make merit increases or automatic length-of-service increases) should be set forth for each job classification involved.

3. Each **job classification** involved should be clearly distinguished and described.

4. So far as **plans for making individual adjustments** between rates or within and between rate ranges (either for existing establishments or for new establishments and departments) are concerned, a proposed plan should contain the following information with respect to one or more of the methods outlined below. The plan so submitted need not necessarily conform to the criteria of the plan set forth above which does not require Board approval.

a. **Merit increases**. The average amount of increase to be given during any year for all employees covered by the plan; and the maximum amount (in cents per hour or in terms of the percentage of the difference between the minimum and maximum rates of the range) of the increase to be given during a given year to any employee.

b. **Automatic length-of-service increases**. The average amount of increase to be given during any year for all employees covered by the plan; and the maximum amount (in cents per hour or in terms of the percentage of the difference between the minimum and maximum rates of the range) of the increase to be given during a given year to any employee.

c. **Promotions or reclassifications**. The rate to be paid upon promotion or reclassification to a higher-rated job, whether the minimum rate called for by the new job or

a rate in excess of such minimum; and if a rate in excess of the minimum called for by the new job is to be paid, the criteria that will determine the rate should be described (e. g., special skill and experience, other unusual qualifications, etc.)

d. **Apprentice or trainee systems**. The conformity of the plan with the standards set forth in appropriate collective bargaining agreements or in appropriate regulations of federal or state agencies with respect to the following items: length of apprenticeship or learner period; proportion of number of apprentices or learners to number of experienced workmen in a given job classification; and relation of apprentice or learner rate at various periods to the rate paid experienced workmen.

The plan should also indicate the approximate percentage increase in payroll costs and in production (total) costs.

5. If there is a duly recognized or certified labor organization which is entitled to bargain on wage matters for any or all of the employees included in a proposed schedule or in a proposed change in an existing schedule, approval must be jointly requested, by the employer and such labor organization, of that part of the schedule which directly involves employees represented by such labor organization. Similarly, agreement with such labor organization must be obtained by the employer before he can adopt or change to the plan which does not require Board approval. If an agreement on any point cannot be reached, the parties may jointly submit the issues to the appropriate Regional War Labor Board for determination or may ask the Regional Board to refer the matter to the National War Labor Board for determination. Failing joint submissions, the matter will be treated as a dispute case.

6. Where an application includes more than one establishment, it shall set forth separately a schedule for each establishment or for each group of similar establishments.

7. Companies having establishments in more than one Region may apply for approval of schedules, where approval is necessary, in each of the Regions where the establishments are located or in the Region in which is located the company office at which the schedules are determined. In the latter case, the Regional Board may, if it considers that the application warrants national consideration, refer it to the National War Labor Board.

B. Any employer who wishes to make a change in one or more provisions of his properly existing wage or salary rate schedule (except changes in conformity with the plan which may be adopted without Board approval) may obtain consideration of such proposed change from the appropriate Regional War Labor Board without the necessity of having his entire schedule approved or reapproved.

(a) The Wage Board for California of the United States Department of Agriculture, hereinafter called the Board, is hereby authorized to act on behalf of the War Food Administrator, hereinafter called the Administrator, to conduct hearings, in accordance with the procedure set forth in § 1103.5 for the purpose of making findings of fact and recommendations with respect to alleged violations of §§ 1103.1 to 1103.3, both inclusive.

(b) Three members of the Board shall constitute a quorum for the purpose of conducting such hearings and the chairman of the Board shall act as presiding officer at the hearings, administer oaths and affirmations, and rule on motions, requests, and on the admission and exclusion of evidence.

Each such report of investigation shall be submitted to the Regional Attorney, United States Department of Agriculture, for consideration. He shall forward the report, with his recommendations, to the Board. If, after consideration of the report and the recommendations, the Board is of the opinion that there is reasonable cause to believe that a violation has occurred, the Board shall request the alleged violator to appear at a hearing before the Board.

(b) **Notice.** Notice of the hearing shall be served on the alleged violator not less than ten (10) days prior to the date of the hearing. Such notice shall set forth (1) the time and place of the hearing, (2) a concise statement of the allegations of fact which constitute a basis for the proceeding, (3) a statement informing the alleged violator that he may be represented by counsel at the hearing and will be given full opportunity to present written or oral testimony and to examine and cross-examine witnesses on all matters relating to the charge, and (4) a statement informing the alleged violator that failure to appear will not preclude the Board from taking testimony, receiving proof and making findings and recommendations with respect to the charges.

(c) **Conduct of the hearing.** The rules of evidence prevailing in courts of law and equity shall not be controlling. The

test of admissibility shall be the reliability, relevancy, and probative force of the evidence offered.

Findings of fact and recommendations shall be prepared, subscribed by the concurring members of the Board and submitted to the Administrator, together with a transcript of the proceedings. A copy of the findings of fact and recommendations shall be served on the alleged violator. PART 1073—FIRE PROTECTIVE, SIGNAL AND ALARM EQUIPMENT

[General Limitation Order L-39, August 23, 1943]¹

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of materials entering into the production of fire protective, signal and alarm equipment, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1073.1 General Limitation Order L-39—(a) Definitions. For the purpose of this order:

(1) "Fire protective equipment" means: sprinkler systems, couplings, playpipes and allied fittings, fire hose, fire hydrants, fire pumps, hose dryers, hose racks, indicator posts, lightning protection systems, piped extinguishing systems, portable fire extinguishers including back pack types, foam generators, stirrup pumps, water spray nozzles, and all other fire protective equipment for preventing or extinguishing fires, excepting self-propelled motorized fire ap-

paratus and auxiliary units including trailer, skid, front mounted and portable apparatus.

(2) "Signal or alarm equipment" means fire, police, and protective alarm and signal systems, including central station, proprietary, auxiliary and automatic fire alarms; watchmen's time recording, burglar, bank vault, hold-up and intrusion systems; and all other instruments and devices to detect, signal or warn against fire or other casualty, except air raid warning devices.

(3) "Dry-pendant sprinkler head" means a sprinkler head for use in a pendant position on a dry pipe system and permanently attached to an extension nipple so as to exclude water from the nipple.

(4) "Incendiary bomb control equipment" means any pump, device, instrument, or material designed for the removal, control or extinguishment of incendiary bombs.

(5) "Stirrup pump" means a manually operated pump used to draw water or other liquid from a separate container to extinguish or control fires.

(6) "Air raid warning device" means any siren, whistle, horn, diaphone, signal or device used or intended for use to warn or signal civilians in connection with air raids or other war hazards.

(7) "Copper base alloy" means any alloy in the composition of which the weight of copper equals or exceeds 40 percent of the weight of all metal in the alloy.

(b) **General restrictions—(1) Restrictions on use of scarce materials.** Except as provided in paragraph (c) of this order, no person shall incorporate in any fire protective equipment, signal or alarm equipment, air raid warning device, or parts thereof, any aluminum, bismuth, cadmium, chromium, copper, mercury, monel metal, nickel, tin, stainless steel, zinc, or alloy of any of said metals, asbestos, rubber or synthetic rubber, except to the extent permitted in Appendix A hereof.

NOTE: Paragraph (b) (1) amended August 23, 1943.

(2) **Restrictions on fire hose couplings.** Except as provided in paragraph (c) of this order, no brass fire hose couplings in the possession or control of any coupling manufacturer, fire hose manufacturer or distributor on April 27, 1942, shall be transferred, sold or incorporated in the manufacture or assembly of any fire hose.

(3) **Restrictions on foam extinguishers.** No person shall purchase or accept delivery of any foam extinguisher except for use in the protection of inflammable liquids, and no person shall sell or deliver any foam extinguisher which he knows or has reason to believe will be used in violation of this paragraph (b) (3).

(4) **Restrictions on manufacture of alkali metal (loaded stream) extinguishers.** No person shall in any quarter complete the manufacture of any type of alkali metal salt solution (loaded stream) extinguishers in excess of 25 percent of the total of such type (irrespective of size) manufactured by such person dur-

ing the twelve month period ending November 30, 1941, except to fill purchase orders or contracts from any agency or government listed in subdivisions (i), (ii), and (iii) of this paragraph (b) (4). In determining the number of extinguishers manufactured during said twelve month base period ending November 30, 1941, extinguishers manufactured to fill contracts or purchase orders from, or for delivery to, any of the following shall be excluded:

(ii) The Government of any of the following countries: the United Kingdom, Canada, and other dominions, Crown Colonies and protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia, and Yugoslavia;

(iii) Any agency of the United States Government for delivery to or for the account of any country listed above or any other country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

NOTE: Paragraphs (b) (5), (6) amended; former paragraphs (b) (7), (8) deleted; new paragraphs (b) (7), (8), (9) added; former paragraph (b) (9) redesignated (b) (10) and amended; former paragraph (b) (10) redesignated (b) (11) August 23, 1943.

(iii) No person shall sell, deliver, install, purchase or accept delivery of any equipment designed to control electrically or pneumatically the flow of water into a fire extinguishing system, unless he has been specifically authorized to do so in writing by the War Production Board. As an exception to the foregoing rule, electrically or pneumatically controlled equipment may be installed for the following purposes without obtaining specific authorization in writing by the War Production Board (however, the purchaser must have a preference rating of AA-5 or higher, as required by subparagraph (i) of this paragraph (b) (6)):

PART 1260—RUBBER PROCESSING MACHINERY AND EQUIPMENT

[General Limitation Order L-143-a as Amended August 25, 1943]

The fulfillment of requirements of the national defense has created a shortage in the supply of certain critical materials used in the manufacture of rubber processing machinery and equipment for the national defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1260.2 *General Limitation Order L-143-a*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Rubber processing machinery or equipment" means new, used or reconditioned or rebuilt machinery or equipment of the kinds listed in Groups I, II, III, IV and V, of List A, designed for use in the manufacture of products from natural crude rubber, latex; reclaimed rubber, scrap rubber, and all types of synthetic rubber. The term also means and includes any such machinery or equipment (except "plastics molding machinery" and "fixtures" controlled by Allocation Order L-159) for experimental use or for use in the manufacture of products from plastics or rubber substitutes. The term does not mean or include "refreading, recapping and repair equipment," which is subject to the provisions of General Limitation Order L-61.

(3) "New rubber processing machinery or equipment" means rubber processing machinery or equipment which has not been delivered to any person acquiring it for use.

(4) "Used rubber processing machinery or equipment" means rubber processing machinery or equipment which at any time has been delivered to any person acquiring it for use, but does not include reconditioned or rebuilt machinery or equipment.

(5) "Reconditioned or rebuilt rubber processing machinery or equipment" means rubber processing machinery or equipment which has been changed in any way in size or form or otherwise conditioned for resale or reuse.

(6) "Manufacturer" means any person producing, rebuilding or reconditioning rubber processing machinery or equipment, whether for his own use or for sale.

(7) "Dealer" means any person regularly engaged in the business of buying or otherwise acquiring new, used or reconditioned or rebuilt rubber processing machinery or equipment for resale.

The term also means and includes transfers within a single corporate enterprise or to foreign subsidiaries, requiring the shipment of rubber processing machinery or equipment, or parts therefor, outside the continental limits of the United States. It does not mean or include transfers in the continental United States of any such machinery, equipment or parts within a plant or within a single corporate enterprise (including subsidiaries).

(b) *General restrictions on production, rebuilding and reconditioning, de-*

livery and acquisition—(1) *Production.* On and after April 9, 1943, no person shall, in any manner, produce or cause to be produced any new rubber processing machinery or equipment or parts therefor or accept delivery of any semi-fabricated or fabricated parts to be incorporated in new rubber processing machinery or equipment or parts therefor; except to fill orders pursuant to authorizations of the War Production Board in accordance with paragraph (d) of this order.

(2) *Reconditioning and rebuilding.* On and after April 9, 1943, no person shall in any way recondition or rebuild any rubber processing machinery or equipment either for his own use or for the use of another person, except:

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1

Some question has arisen as to the effect of L-49 upon the repair and renovation of used coil, flat, and fabric bed springs. Paragraph (a) (5) of L-49 defines a manufacturer as "any person who manufactures or assembles bedding products . . ." and paragraph (a) (6) defines a renovator as "any person who repairs used bedding products."

Persons who obtain new or used parts, or used bedsprings, which they tear down completely and which they thereafter reassemble into bedsprings are engaged in manufacturing operations regardless of the fact that only used parts may be involved. As manufacturers they become subject to weight and quota limitations on bedsprings contained in L-49. Persons who take used bedsprings and remove only worn parts of such springs which they replace with either new parts or parts which have been used in bedsprings other than the specific ones being repaired are renovators and as such are not subject to any restrictions contained in L-49. For all other items covered by this regulation f. o. b. maximum prices shall also be determined separately for each factory except that if any group of two or more factories had the same f. o. b. factory price for the 1941 pack of an item, the maximum prices for such item for all the factories in the group shall be the maximum price of the factory in the group which had the largest volume of production during the 1941 pack.

(c) Any processor who sold or delivered any item covered by this regulation, packed by him during the calendar year 1941, from two or more of his factories on an established uniform delivered price basis by zone or area regardless of the factory from which shipment was made, may continue such practice and establish maximum delivered prices by averaging the maximum delivered prices computed in accordance with paragraphs (a) or (b) with respect to sales from each such factory on the basis of the proportion of actual deliveries of the 1943 pack of the item to be made from each of his respective factories.

3. Section 1341.564 is added to read as follows:

§ 1341.564 *Treatment of fractional parts of a cent in figuring maximum prices.* (a) Amounts computed in the process of, or as a step in, figuring a maximum price (other than the maximum price itself) shall be carried to four decimal places (hundredths of a cent). Any further fraction shall be disregarded.

(b) The final computation in figuring a maximum price, per dozen or other unit, on sales other than to government procurement agencies shall be rounded off to the next higher full cent if the fraction is one-half cent or more, and shall be reduced to the next lower full cent if the fraction is less than one-half cent. On sales to government procurement agencies, however, the final computation in figuring the maximum price shall be carried to four decimal places (hundredths of a cent) and any further fraction shall be disregarded.

(a) No manufacturer shall sell, deliver, or transfer any gummed Kraft sealing tape at higher prices than the maximum prices set forth in Appendices A and B of this Maximum Price Regulation No. 459.

(b) No person shall buy or receive from a manufacturer any such

gummed Kraft sealing tape in the course of trade or business at higher prices than the maximum prices set forth in Appendices A and B of this Maximum Price Regulation No. 459.

(c) No person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That the provisions of this Maximum Price Regulation No. 459 shall not apply to sales or deliveries of gummed Kraft sealing tape to a purchaser if prior to August 30, 1943, such gummed Kraft sealing tape has been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser.

SEC. 2. *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 459 may be charged, demanded, paid or offered.

amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however*, That the tax on the transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall for purposes of determining the applicable maximum price of any product covered by this Maximum Price Regulation No. 459 be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. (3) The manufacturer may sell and deliver such grade of gummed Kraft sealing tape at his proposed maximum price, if, but only if, he expressly agrees with each customer to adjust such price, if necessary, and to conform with any decision of the Office of Price Administration, or a duly authorized representative thereof with respect thereto.

Only in those cases where it was the established practice of the manufacturer during the period July 1 to October 15, 1941, inclusive, to add a differential for printing, may he add a charge for such service to the maximum prices established by Appendix A. Such differential shall not exceed the customary charge employed by the manufacturer during the period July 1 to October 15, 1941, inclusive.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

APPLICATIONS FOR PERMITS TO CONSTRUCT OR CHANGE LOCAL CHANNEL STANDARD BROADCAST STATIONS

SUPPLEMENTAL STATEMENT OF POLICY

Upon consideration of a report and recommendation of its Committee on Critical Radio Materials, the Commission, on August 10, 1943, determined that under certain stated conditions it would be in the public interest to grant applications for permits involving the use of idle equipment to increase power of 100-watt local channel standard broadcast stations to 250 watts and for construction of new 100-watt or 250-watt local channel stations.

Applications for permits to construct new 100-watt and 250-watt local channel standard broadcast stations in cities or towns where no station is located at present and not located in metropolitan districts already served by radio stations, and applications to increase power of local channel stations to 250 watts may be granted upon a satisfactory showing that:

1. All required materials, except vacuum tubes, may be obtained without priority assistance.¹

2. Such applications involve no inconsistencies with the Commission's Rules and Regulations.

3. Such applications tend toward a fair, efficient and equitable distribution of radio service, are consistent with sound allocation principles, offer substantial improvement in standard broadcast service, and

4. Such applications are otherwise in the public interest.

Applications for local channel stations or changes in such stations which have been dismissed without prejudice pursuant to the policies announced February 23, 1942 and April 27, 1942, may be reinstated for consideration in the light of the new circumstances upon submission of a petition within thirty days of this date showing (1) that such application is in conformity with the foregoing enumerated conditions; and (2) any and all changes with respect to facts and circumstances as represented in the original application.

Dated: August 10, 1943.

By the Commission.

Secretary.

Order No. G-11 Under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122—Solid Fuels Sold and Delivered by Dealers. Pennsylvania anthracite delivered by dealers in that portion of Hudson County east of the Hackensack River, State of New Jersey—Coal Area II.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional

Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, It is ordered:

(a) *What this order does—*(1) *Dealers' maximum prices; area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" hereinafter called simply "anthracite" delivered to or at any point in Coal Area II. Coal Area II includes all of Hudson County in the State of New Jersey east of the Hackensack River.

(2) *Schedules of prices, charges and discounts.* The applicable prices and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Coal Area II, are set forth in Schedules I, II and III hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices and discounts, and by all other provisions of this order for all deliveries within Coal Area II, whether or not you are located in Coal Area II.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not—

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by—

(i) Changing the discounts authorized herein, or

(ii) Charging for any service rendered in connection with the sale or delivery of anthracite subject to this order, or

(iii) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that the dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government, or

(iv) Using any other device by which a higher than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) *Use the schedule which covers your sale.* (Schedule I applies to "direct-delivery" sales of anthracite. You will find Schedule I in paragraph (d). Schedule II applies to "Yard Sales". You will find Schedule II in paragraph (e). Schedule III applies to sales of bagged coal in 50 lb., 25 lb. and 12 lb. paper bags. You will find Schedule III in paragraph (f).)

(2) *For "direct-delivery" sales.* (i) Take the dollar-and-cents figure given in the applicable schedule for the size and quantity you are selling.

(ii) Deduct from this figure the amount of the discount which you are required to give as specified in the schedule. (You will find discounts stated in paragraph (d) (2).) If the schedule makes no reference to any discount, you need give no discount. Where a discount is required, you must state it separately on your invoice.

(iii) If you deliver a fraction of a net ton, even if less than one half ton, and the applicable schedule provides a discount on the basis of one ton or one half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 50¢ per ton for cash payment, you shall deduct 38¢ for three-quarters of a ton and 13¢ for one-quarter of a ton.

(iv) You shall not impose any charges with respect to such sales.

(3) For "yard sales". (i) The dollars-and-cents figure set forth in the applicable schedule for the sizes and quantities specified shall be the maximum price for sales of those sizes and in those quantities at the yard. You shall not impose any charges, and you are required to give no discounts, in connection with such sales.

(4) For "sales in 50 lb., 25 lb. and 12 lb. paper bags". (i) The dollars-and-cents figure set forth in the applicable schedule for the size of anthracite and type of sale there specified, shall be the maximum price. You shall not impose any charges, and you are required to give no discounts, in connection with such sales.

(d) *Schedule I: Sales on a "direct-delivery" basis.* Schedule I establishes maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area II.

(1) *For sales of anthracite of the sizes and in the quantities specified.*

Size	Per net ton	Per net ½ ton	Per 100 lbs. for sales of 100 lbs. or more, but less than one-half ton

Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if these sizes are separately weighed at the point of loading, the dealer may commingle these sizes in the truck or other vehicle in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately

state the price, so determined, for the quantity of each size in the combination.

(2) *Required discounts.* (i) You shall deduct from the prices set forth above in this schedule, on sales and deliveries of all sizes except screenings, a discount of 50¢ per net ton and 25¢ per net ½ ton, where payment is made on delivery. Nothing in this sub-paragraph requires you to sell on other than a cash basis.

(ii) In addition, you shall deduct a discount of 75¢ per net ton, on sales and deliveries of all sizes except screenings, to consumers purchasing from one dealer, for delivery at one point, a quantity of 50 tons or more, within a period of twelve months.

(a) You shall not break up a single order in an attempt to avoid this discount.

(b) You must grant this discount whether the purchaser has received 50 tons or more pursuant to a single purchase order, or several purchase orders, and whether there was delivery at one time or at intervals of time, the sole basis of the discount being the annual purchase of 50 tons or more for delivery at one point.

(c) You must deduct this discount at or before the delivery of the fiftieth ton and continue to grant the discount on every subsequent delivery during the same twelve month period.

(e) *Schedule II: "Yard sales"—(1) Maximum prices for certain sizes of anthracite sold at the dealer's "yard" within Coal Area II.*

Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if these sizes are separately weighed at the point of loading, the dealer may commingle these sizes in the truck or other vehicle in which purchaser accepts delivery. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(f) *Schedule III.* Schedule III establishes maximum prices for sales to dealers and to consumers within Coal Area II of the specified size of anthracite in 50 lb., 25 lb. and 12 lb. paper bags.

(4) If you sell one size of anthracite commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if those sizes are separately weighed before bagging, the dealer may commingle those sizes in the bags in which the anthracite is sold. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(g) *Ex Parte 148—Freight Rate Increase.* Since the Ex Parte 148 Freight Rate Increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(h) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) *Taxes.* If you are a dealer subject to this order you may collect, in addition

to the specific maximum prices established herein, provided you state it separately, the amount of the federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. For convenience in billing, you may use on your invoice a rubber stamp reading: "Above price includes Federal Transportation Tax of 4¢ per ton."

(j) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(l) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(m) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the *licensing* and *registration* provisions of sections 15 and 16 of the General Maximum Price Regulation. Sections 15 and 16 provide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but you may later be required to register. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(n) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, the same records you were required to preserve and keep under § 1340.262 (a) and (b) of Revised Maximum Price Regulation No. 122.

(o) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which

must be deducted from, and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(p) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Newark District Office of the Office of Price Administration.

PENNSYLVANIA ANTHRACITE IN COAL AREA
III, N. J.

Order No. G-12 Under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122—Solid Fuels Sold and Delivered by Dealers. Pennsylvania anthracite delivered by dealers in—Essex County, all of Hudson County west of Hackensack River, and the Townships of Union, Hillside, and Springfield, in Union County, State of New Jersey—Coal Area III.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does—*(1) *Dealers' maximum prices; area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in State of New Jersey—Coal Area III. Coal Area III includes the following portions of the State of New Jersey: All of Essex County, all of Hudson County West of the Hackensack River, and the Townships of Union, Hillside, and Springfield, in Union County.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Coal Area III are set forth in Schedules I, II, and III hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices, charges and

discounts, and by all other provisions of this order for all deliveries within Coal Area III, whether or not you are located in Coal Area III.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not—

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by—

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Use the schedule which covers your sale. (Schedule I applies to "Direct Delivery" sales of anthracite. You will find Schedule I in paragraph (d). Schedule II applies to "Yard Sales" by dealers who have normally sold exclusively to other dealers for resale, and by other dealers. You will find Schedule II in paragraph (e). Schedule III applies to sales of bagged coal in 50 lb., 25 lb., and 12 lb. paper bags. You will find Schedule III in paragraph (f).)

(2) Take the dollar-and-cents figure given in the applicable schedule for the size and quantity you are selling.

(3) Deduct from this figure the amount of the discount which you are required to give as specified in the schedule. (You will find discounts stated in paragraph (d) (2) and paragraph (e) (3).) If the schedule makes no reference to any discount, you need give no discount. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure derived from the preceding sub-paragraphs (2) and (3) no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized services charges are those provided for sales under Schedule I.

(5) If you deliver a fraction of a net ton, even if less than one half ton, and the applicable schedule provides a discount on the basis of one ton or one half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 50¢ per ton for cash payment, you shall deduct 38¢ for three-quarters of a ton and 13¢ for one-quarter of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(2) *Required discounts.* (i) You shall deduct from the prices set forth above in this schedule, on sales and deliveries of all sizes except screenings, a discount of 50¢ per net ton and 25¢ per net ½ ton, where payment is made within ten days after delivery. The price for anthracite so commingled shall be calculated on the basis of the applicable price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(g) *Ex parte 148 Freight Rate Increase.* Since the Ex Parte 148 Freight Rate Increase has been rescinded by the Interstate Commerce Commission, the dealers' freight rates are the same as

those of December, 1941. Therefore, you may not increase any schedule price on account of freight rates.

(h) *Addition of increase in supplier's maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased.

(j) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) *Storage services.* Notwithstanding any prohibitions in this order against the imposition of charges for services other than those specifically authorized herein, a dealer may request the Regional Administrator to establish a price for rendering storage services, where during December 1941, the dealer did not render the same or substantially similar storage service without charge. The application shall set forth in writing:

(1) A detailed description of the services to be rendered;

(2) The classes of purchasers to whom it will be rendered;

(3) Whether the service was rendered in December 1941 and, if so, the charge, if any, then imposed;

(4) Whether the service was rendered after December 1941 and, if so, the charge, if any, imposed;

(5) A proposed price for the service which shall be shown to the satisfaction of the Regional Administrator to be reasonable in relation to the actual costs the dealer will incur in rendering the service;

(6) Any other pertinent information the Regional Administrator may request.

Where the Regional Administrator believes that the establishment of a maximum price for such service will not impede essential distribution of anthracite within Coal Area III, and is otherwise warranted, he shall establish a maxi-

mum price therefor. The maximum price for such service shall be a price specifically authorized in writing by the Regional Administrator.

(l) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that a petition shall be filed with the Regional Administrator and acted upon by him.

(m) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

Sections 15 and 16 provide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but you may later be required to register. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(o) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, the same records you were required to preserve and keep under § 1340.262 (a) and (b) of Revised Maximum Price Regulation No. 122.

(p) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(q) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.
